**Providing Suicide Safe Care during COVID-19**

<http://zerosuicide.edc.org/covid-19>

Starting with a culture of change, ZS transforms clinical practice of suicide prevention starting, by way, of screening and assessment. When a client is at a moderate to high level of risk, a suicide prevention plan of care is initiated. Up-on implementation of evidenced based best practices, data is gathered, reviewed, and used for ongoing improvement.

**If not zero, how many?**
